

WELCOME TO SMARTER

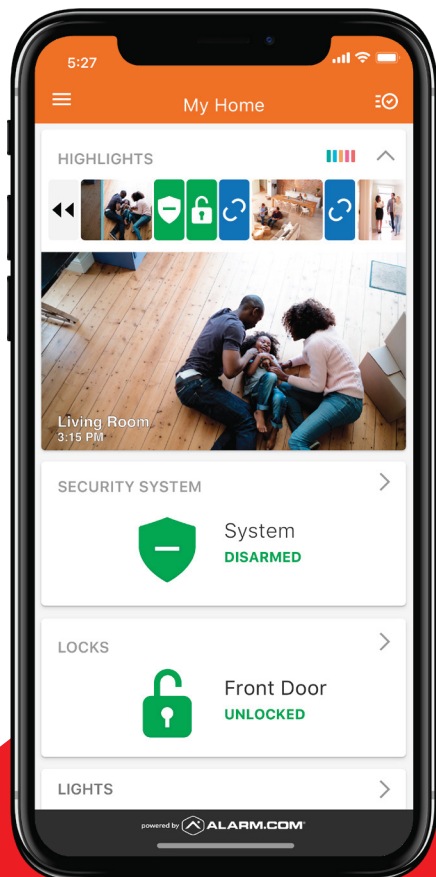

Home Security

POWERING THE Smart Home

**AN ALARM.COM POWERED SYSTEM PROVIDES
SOLUTIONS TO MONITOR AND PROTECT YOUR
HOME AND EVERYONE IN IT.**

Alarm.com's award-winning solutions monitor, protect and automate homes like never before. We seamlessly connect all the key systems in your home on one platform for constant awareness and easy control.

**Highlights shows a recap of all
the important events of your day.
Save and share your highlights
with friends or family.**

SECURE, PROFESSIONAL **Protection**

Keep your loved ones and property protected with professionally monitored Smarter Home Security.

Rest assured with a dedicated, tamper-resistant cellular connection.

Even if the panel is damaged or the phone line is cut, your system keeps you protected.

Know instantly about unexpected events like a door opening at an unusual time.

Control who can turn your system on and off with unique user codes.

Stay aware of important activity at your property anytime, with customizable notifications.

Ensure complete security with connected carbon monoxide and smoke detectors.

The Image Sensor is a wireless motion sensor with a camera that takes a picture when motion is detected and sends it to you. Now you can see a picture that confirms your loved ones arrived safely at home.

ACCESS TO **Your Property**

**Control who can enter your home at all times
with connected locks and garage doors.**

No more lost keys – create unique codes for guests and control when they can enter your home.

Allow scheduled access for the dog walker and know that they arrived on time.

Remotely lock or unlock the door right from the mobile app.

Stop wondering if you closed the garage door – receive an alert if the garage door is left open and close it no matter where you are.

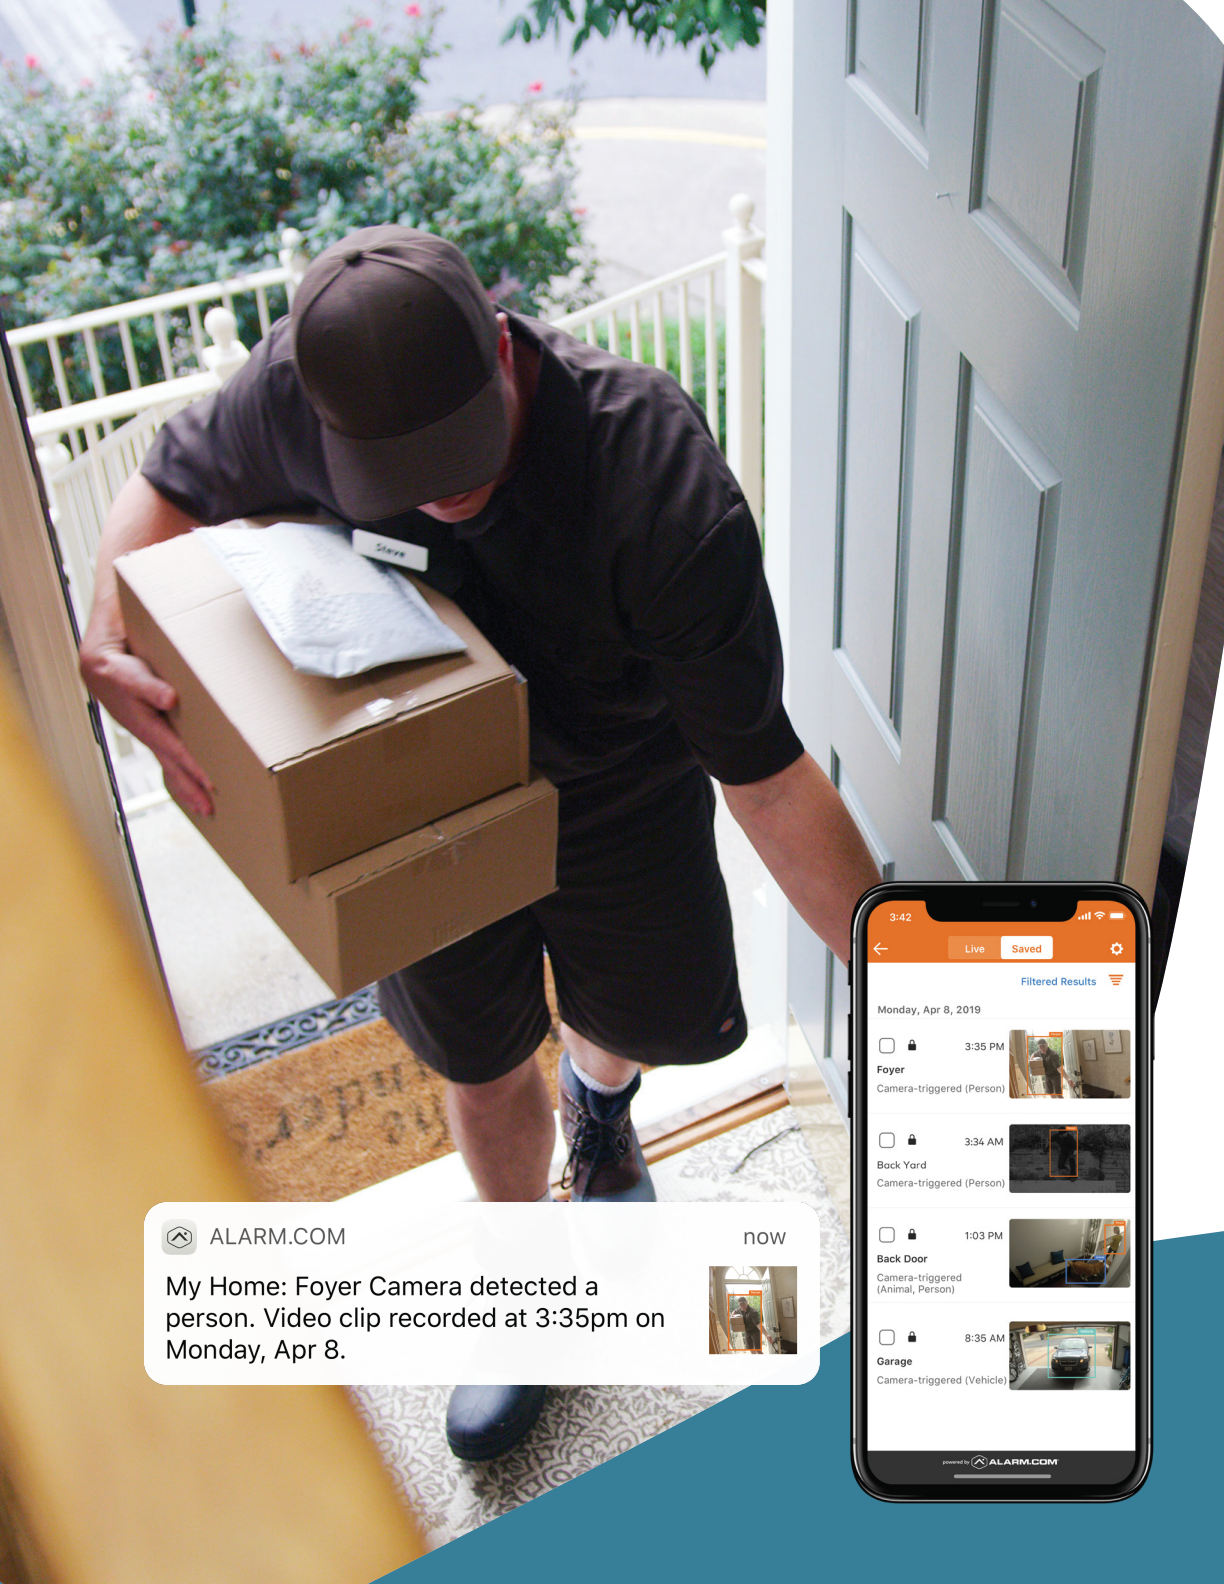

Get reminders if any door is left open or unlocked when it shouldn't be.

My Home: Foyer Camera detected a person. Video clip recorded at 3:35pm on Monday, Apr 8.

INTEGRATED

Video Monitoring

A critical component for the best in home security, our integrated video solutions ensure you'll never miss an important moment at home. HD quality cameras provide crystal clear video so you can always see what's happening.

Get a video clip sent directly to you when the front door opens, motion is detected, or the alarm goes off.

View live video to check in on your family at home and talk to them directly through the camera with two-way voice.

Receive a video alert when a car is detected in your driveway and automatically turn on selected lights.

See who rings the doorbell and use your smartphone to speak to visitors and unlock the door.

Access clips from anywhere with 24/7 HD recording and cloud-based streaming.

**Indoor 1080p
Wi-Fi Camera
with Two-Way Audio**

**Indoor 1080p
Wi-Fi Camera
with HDR**

**180° HD Camera
with Enhanced Zoom
and Two-Way Audio**

**Outdoor 1080p
Wi-Fi Camera

Doorbell Camera**

**Alarm.com Slim Line
Doorbell Camera**

**Stream Video
Recorder**

With Video Analytics your cameras can distinguish between people, vehicles and animals to deliver video alerts on what matters most to you. For example, get a video alert when a person enters your yard at night, but continue sleeping when it's an animal.

SMARTER Energy Savings

**Experience more responsive energy savings and control
with connected thermostats and lighting.**

Have your thermostat start heating up your house when you leave the office, so you come home to comfort.

Get an alert if the thermostat is adjusted, or if the temperature gets too high or too low.

Use real-time local weather data to automatically adjust the thermostat.

Have your lights automatically turn off at a certain time of day, or when you arm your system.

PROTECTION FOR THE Whole Home

**Your Smarter Home Security delivers peace of mind
by monitoring critical home systems.**

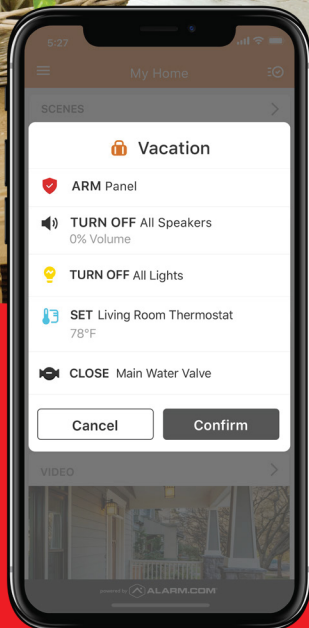

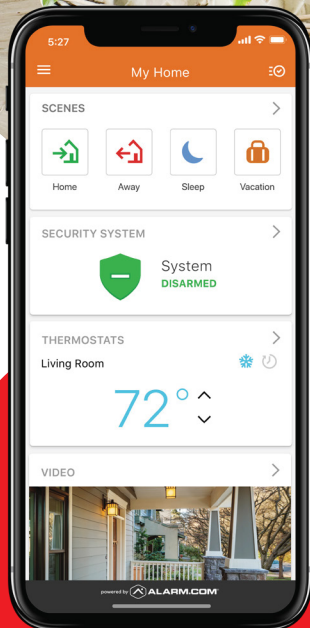

Monitor potential leaks or burst pipes to prevent costly water damage.

Close water shut-off valves automatically when water is detected

Manage water usage by remotely shutting off sprinklers during an unexpected rain.

Receive monthly HVAC Heating and Cooling reports that identify potential system issues.

Adjust multiple devices with the touch of a button – lights, shades, thermostat and music respond together whether you're setting the perfect ambiance for a party or getting ready to leave for vacation.

CONNECTED

Living and Wellbeing

Help aging loved ones live independently at home with enhanced safety, security and comfort.

Understand your family member's activity pattern and get an alert if anything is out of the ordinary.

Make sure your loved one is up and active during the hours you would expect.

Receive alerts when doors are opened at unusual hours, or the bed is left vacant for a long time at night.

Stay connected and see how your loved-ones are doing with the exclusive Wellcam™, which includes two-way voice and live video calls.
